

Short profile mentee and mentor shortlist

A. Mentee profile

For the first contact, the program management needs a short profile of you. Please give an overview in 4-5 sentences with the following information.

Your full name including title

PhD student

Postdoc

- Field of expertise, research topic and interest, PhD student or Postdoc.
- Professional field you are aiming for.
e.g. the mentee is currently pursuing a PhD in microsystems engineering. After completing her thesis, she aspires to a position as a product manager in a medical technology company.
- What else should I tell the future mentor about you and your goals?

B. Mentor matching

Reflect on your key priorities and outline why you think you need the respective characteristic or constellation or condition for a mentor.

- Determine and specify only those characteristics or conditions, which are relevant for your mentor choice.
- Differentiate, which characteristics or conditions are crucial for your mentor's profile and which are not essential but „nice to have“.
- Multiple selection possible
