Traditionally, we start the year with a "kite-mentoring" Internal Kick-off meeting, with the aim of giving feed-back and for planning the events in 2024.

It is the moment when your ideas and suggestions get entrance into the program, when you can shape the program's offerings for this year. We have a real bottom up approach and offer our services according to the demands of the group of mentees.

Besides receiving feed-back regarding the events from last year, we will discuss what kind of workshops & events and in which format we should offer designing the PREVIEW of 2024.

The meeting will be ONLINE - please collect ideas and suggestions and bring up your suggestions.

For those who are new and interested in the "kite-mentoring" program, it is the proper moment to get an overview & impression of the program. Therefore, please circulate the info and the link to possible mentees, we are open for new registrations!

The link for the zoom meeting will be announced in advance.
