## Stop just “doing” your job and spice up your professional life

Do you sometimes feel like losing the joy of work and just “doing” your job? Or that the work you completed today is just replaced by a new endless list of tasks tomorrow, and you feel like Sisyphus? Have you ever asked yourself if this job is the right one for you? Or are you already searching for a new position? I’m very happy if you join us in this workshop dedicated for reflection and revival of our professional vocation.

Very often we lose enthusiasm for our work when we stop growing, or when growth is no longer structurally possible. But what if you weren’t just “doing” your job? What if you replaced “doing” with “improving” or “reinventing” or “transforming”? What would happen if we had enough confidence and courage to reconsider the implications of why we do what we do and how we do what we do? Don’t worry! You don’t have to quit your job!

Our trainer ERIKA MAGYAROSI invites you to find more meaning in what you do, to discover your values, your childhood dreams, match them with your professional reality and fill resourceful while growing professionally.
