NOTE it is absolutely an exception that we can visit under these circumstances the plant. For visiting the clean room, we have to follow some regulations:

- You need flat, closed shoes
- Please wear and ideally wear pants, because the overalls have legs and it is cumbersome with a skirt.
- You should also think of a hair tie, otherwise the hair will slip out of the hood.
- If possible, do not wear any jewelry, as this must also be taken off or possibly stowed in the bag in the room.
