

Next Meet-up: November 30th at 19.00 CET

Dear women,

I hope you are all enjoying the final weeks of Autumn. 🍎🍎🍁

Our November Meet-up is coming up and we have an exciting guest speaker joining us!

Mariann Oemisch, PhD from the Boston Consulting Group will present her talk:

Looking beyond Academia – working in consulting as a scientist!

Being a scientist and working in consulting? Are you wondering how and why?

Mariann will talk about how she ended up in consulting instead of a lab and what her day at BCG looks like. She will provide insights into which projects scientists work on at BCG and challenge stereotypes you might have heard of.

Mariann has had an interesting journey from her STEM field in Neuroscience to her work now as a consultant in the health care industry. This is a great opportunity for all our members including coordinators to hear about career possibilities outside the traditional academic path.

Please register below to receive the Zoom link for the meeting on November 30th at 19.00 CET.

(Make sure to check your spam folder after you register just in case 🙄)

Looking forward to seeing you there!

Warm greetings,

Francesca

Mariann Oemisch, PhD

Mariann is a Consultant at Boston Consulting Group (BCG). She acquired her Masters and PhD in Neuroscience in Canada. Afterwards she completed Postdoctoral stints at both Yale and Johns Hopkins University before switching gears completely and entering the consulting world.

Since joining BCG in Germany in 2020 she has worked with many different clients – predominantly in the health care/science industry – on a multitude of complex challenges.
