

■ Develop your Teamworking skills - BrainLinks-BrainTools Seminar

What?

Teamwork is already a big issue during your PhD. Once finished, you will face new challenges integrating into a new team and working efficiently with other people. Understanding Team Dynamics will hence be a vital part of your further career. Therefore, we now offer you a 3-day seminar to develop and improve upon your **Teamworking and Team Dynamics skills**. The course will tackle questions such as: How does a team work? How can efficiency be positively influenced? How do I integrate into a new team depending on my role in it?

Summary

- 3-day full time course conducted by two professional coaches
- max. 30 participants (German and English speaking coaches)
- this course is part of the "BrainLinks-BrainTools Graduate Program"

Who?

All BrainLinks-BrainTools Junior Scientists are warmly invited to register

When?

29.08 (Wednesday) -
31.08. (Friday) 2018

Where?

BDB-Musikakademie, Staufen (20 km south of Freiburg)

Please note that the participation includes accommodation.
